

Do you have an itchy dog?

Seguin Animal Hospital is currently recruiting patients for a clinical study to evaluate a new medication for use in dogs with allergic dermatitis.

- Dogs must be at least 7 months of age or older to participate
- Pet owners must agree to bring their dog for 3 veterinary examinations, over a 14-day period
- Qualified dogs will receive complete physical examinations (including blood work and uranalysis) and study medication no cost to you

If you are interested in learning if your dog is eligible to participate, please call us at
